

Rafael Carrillo

PROFESSIONAL SUMMARY

Aspiring IT Professional currently pursuing the CompTIA A+ Certification with a strong foundation in technology, systems analysis, troubleshooting, and technical support. Experienced in coordinating operations, managing technical workflows, maintaining documentation, and supporting cross-functional teams in fast-paced environments. Proficient with Windows, macOS, Microsoft 365, networking fundamentals, hardware/software troubleshooting, and customer-focused problem solving.

PROFESSIONAL EXPERIENCE

Exponent | Research Operations Assistant

April 2026 - Present

- Coordinated logistics and tracking of high-priority research materials across multiple locations.
- Maintained accurate records and documentation while ensuring compliance
- Investigated and resolved operational issues to maintain workflow and minimize disruptions.
- Collaborated with cross-functional teams to support technology-driven research operations.
- Utilized digital tracking systems to monitor assets and ensure data accuracy.

Tata Elxsi | UX Researcher (Human Factors & Behavioral Research)

October 2025 - December 2025

- Collected, analyzed, and documented technical/behavioral data for product validation projects.
- Collaborated with engineering/product teams to identify improvements and requirements.
- Maintained detailed documentation and reporting for research activities.
- Supported data quality assurance processes under strict regulatory requirements.

America On Tech | UX Design Instructor

January 2025 - May 2025

- Delivered technology training to 30+ students covering software tools, systems thinking, and technical problem-solving.
- Assisted students with troubleshooting technical issues and software-related challenges.
- Created documentation and instructional resources to improve learning outcomes.
- Supported technology adoption and user success across multiple platforms.

URBAN Teens Exploring Technology | Program Coordinator

October 2022 - May 2025

- Coordinated project operations for 10 cross-functional teams using structured workflows and project tracking tools.
- Managed technical documentation, task prioritization, and milestone tracking.
- Supported implementation of digital systems and process improvements.
- Ensured quality standards and operational efficiency across multiple concurrent projects.

Commit the Change at UC Irvine | Design Lead

June 2023 - June 2024

- Led a cross-functional team of 4 designers to build a volunteer management system serving 4,000+ users, supporting large-scale coordination between volunteers and administrators.
- Conducted stakeholder interviews and requirements gathering to understand organizational needs and operational pain points.
- Redesigned the organization's workflow from paper-based processes to a centralized digital system, reducing administrative workload by 30% and increasing operational efficiency.

Social and Technological Action Research Lab | UX & Behavioral Researcher

Dec 2022 - June 2023

- Conducted co-design and behavioral research sessions with 20+ participants to explore technology solutions for noise-sensitivity and sensory experience challenges.
- Applied qualitative research methods, including card sorting, think-aloud protocols, sketching, and affinity mapping to analyze user behavior and needs.

EDUCATION

University of California, Irvine

Bachelor of Science in
Informatics,

Specialization in
Human-Computer Interaction,

Minor in Information and
Computer Science, 2019-2024

Google — UX Design
Certificate, 2025

CompTIA A+ Certificate (In
Progress, Expected 2026)

CORE SKILLS

- Technical Troubleshooting
- Hardware & Software Support
- Windows & macOS Administration
- Microsoft 365
- Active Directory (Learning)
- Networking Fundamentals
- Ticketing Systems
- Documentation & Knowledge Bases
- Asset Management
- Technical Communication
- Customer Service
- Problem Solving

TECHNICAL SKILLS

- Windows 10/11
- macOS
- Python
- HTML/CSS/JS
- Java
- C++
- Microsoft 365
- Google Workspace
- Jira
- GitHub
