

# Rafael Carrillo

## PROFESSIONAL SUMMARY

Technical Support Specialist with experience supporting POS systems, payment processing hardware, and CRM platforms. Experienced in troubleshooting hardware and software issues, documenting technical solutions, and collaborating across technical and business teams. Strong foundation in customer support, operations, and front-end development. Currently pursuing CompTIA A+ certification to advance into IT Support and Systems Administration.

## PROFESSIONAL EXPERIENCE

PaybotX LLC | Technical Support Specialist

June 2026 - Present

- Provide technical support for POS systems and payment processing hardware.
- Troubleshoot hardware, software, and connectivity issues for merchants.
- Configure and program Clover, Valor, and Dejavo payment terminals.

Exponent | Research Operations Assistant

April 2026 - July 2026

- Coordinated logistics and tracking of high-priority research materials across multiple locations.
- Maintained accurate records and documentation while ensuring compliance
- Collaborated with cross-functional teams to support technology-driven research operations.

Tata Elxsi | UX Researcher (Human Factors & Behavioral Research)

October 2025 - December 2025

- Collected, analyzed, and documented technical/behavioral data for product validation projects.
- Collaborated with engineering/product teams to identify improvements and requirements.
- Maintained detailed documentation and reporting for research activities.
- Supported data quality assurance processes under strict regulatory requirements.

America On Tech | UX Design Instructor

January 2025 - May 2025

- Delivered technology training to 30+ students covering software tools, systems thinking, and technical problem-solving.
- Assisted students with troubleshooting technical issues and software-related challenges.
- Created documentation and instructional resources to improve learning outcomes.
- Supported technology adoption and user success across multiple platforms.

URBAN Teens Exploring Technology | Program Coordinator

October 2022 - May 2025

- Coordinated project operations for 10 cross-functional teams using structured workflows and project tracking tools.
- Managed technical documentation, task prioritization, and milestone tracking.
- Supported implementation of digital systems and process improvements.
- Ensured quality standards and operational efficiency across multiple concurrent projects.

Commit the Change at UC Irvine | Design Lead

June 2023 - June 2024

- Led a cross-functional team of 4 designers to build a volunteer management system serving 4,000+ users, supporting large-scale coordination between volunteers and administrators.
- Conducted stakeholder interviews and requirements gathering to understand organizational needs and operational pain points.
- Redesigned the organization's workflow from paper-based processes to a centralized digital system, reducing administrative workload by 30% and increasing operational efficiency.
